EXECUTIVE TECHNIPLAN

A NEW ERA IN OFFICE PLANNING

The office of today's business executive is styled for prestige and engineered for efficiency. It embodies comforts and conveniences undreamed of a generation ago. Above all else, today's offices must be custom-tailored to the personal needs and preferences of the individual executive. No routine arrangement will yield the appearance—nor the advantages—that a specially planned office will. This is where Executive Techniplan steps in. It is a system of amazing furniture flexibility that is without parallel. Globe-Wernicke proudly presents Executive Techniplan as the climax of over 75 years of leadership in the field of fine office furniture.

FREEDOM OF CHOICE

Some idea of the freedom of choice that Executive Techniplan offers can be gleaned from the fact that you can have several sizes in desk tops (66", 76" or 96") and any number of personalized arrangements of drawers, file space, and storage compartments. There is, furthermore, an extremely wide choice of color harmonies plus three special designs of hardware as well as several types of bases. Your functional needs can be studied and a solution worked out in modules of Executive Techniplan that precisely and specifically best answers *your* special requirements. No other system of office furniture offers you such a wide latitude for personal expression and personal preferences.

EXECUTIVE TECHNIPLAN

ENGINEERED FOR EFFICIENCY

That old-fashioned knee-hole desk is a thing of the past. Today's knowledge of space efficiency dictates the L-shaped desk . . . a major and minor working surface, with specially arranged filing drawers, small or large storage drawers and cabinets . . . all at your finger-tips and integrated to produce a custom-made installation that is nevertheless composed of standard elements. And here is where the astonishing economy of Globe-Wernicke's Executive Techniplan enters: You obtain an office specifically devised for *your* needs and yet costing you no more than commonplace commercial furniture!

Here is an ideal solution in Executive Techniplan for the executive who needs lots of clear desk top area, but does not need much filing or storage space.

F

For the business executive who must have easy access to many files and drawers, Executive Techniplan yields this highly effective combination of desk and auxiliary unit.

G

For books, reports, and literature that do not conveniently fit into drawers or files, this arrangement includes a cabinet with sliding doors.

H

In all there are six different desk supports available in Executive Techniplan, of which three can be seen on this page: The tapered panel, the pedestal, and the H-type leg. You may choose, too, the desk size just right for your office, for shown here are the 66-inch, 76-inch, and 96-inch desk tops. Note the varied selection of drawer and desk combinations. Three characteristic versions are illustrated on this page.

J

SO MANY WAYS TO ARRANGE THIS FURNITURE

Here you can see why the Executive Techniplan system of office furniture has been termed "flexibility personified"... note on this and the following three pages the extensive choice you have in combinations of Desk Tops, Drawers, and Cabinets as well as the different types of desk supports. It is well to keep in mind too that Executive Techniplan is manufactured to the most exacting specifications and embodies the highest standards of construction and finish ... as you would, of course, expect from Globe-Wernicke ... and despite these quality characteristics and the individualized nature of the desk you choose, the total outlay will make you smile with pleasure.

K

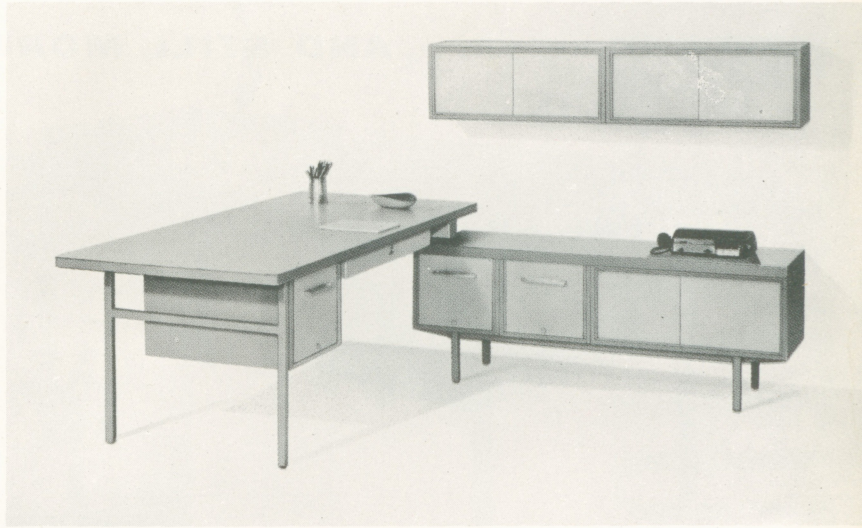
L

Plenty of leg room and a light, airy feeling are provided in this desk, utilizing a splayed leg support. In this instance, one corner of the desk actually rests on the auxiliary unit.

M

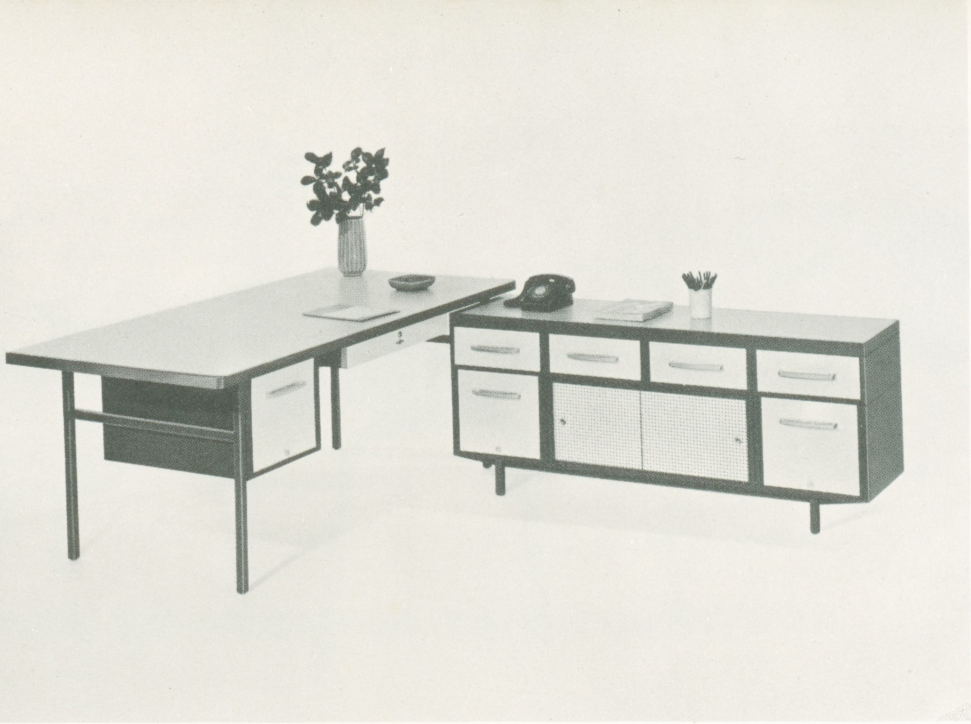
Again a combination offering generous drawer and storage space. The use of the auxiliary to accommodate telephone and other office appurtenances keeps the desk itself clear for action.

N



The filing drawer, which is suspended from the desk top, permits finger-tip access to its contents. A wall-mounted book case is another example of the versatility of Executive Techniplan.

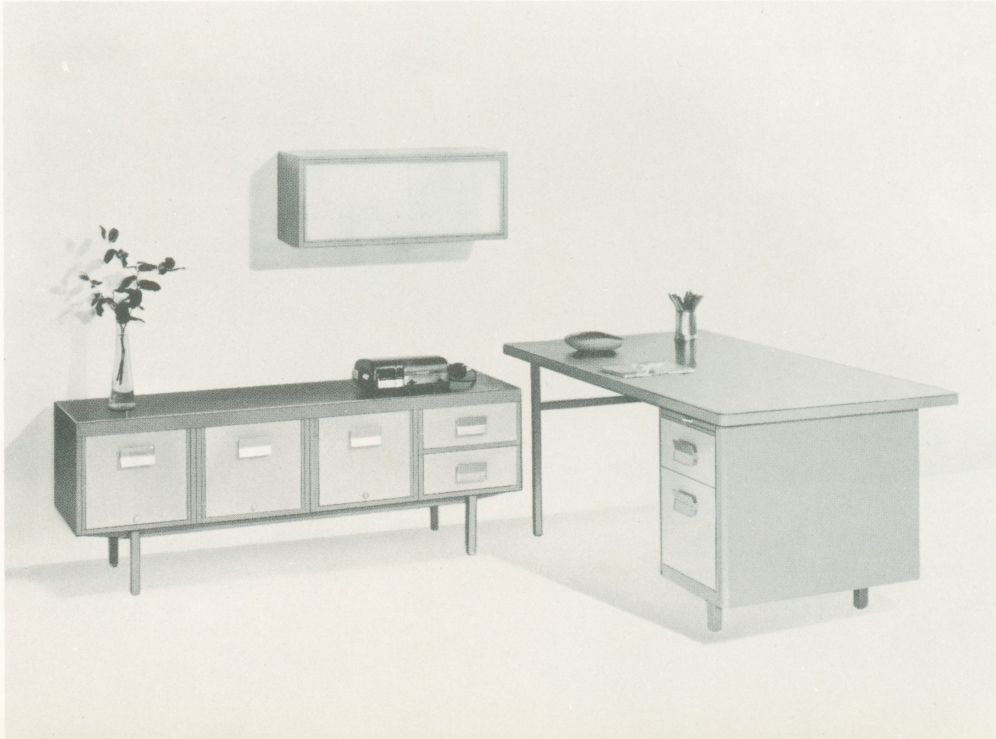
O



The auxiliary unit here has 50% greater capacity than the one illustrated below because an additional series of modules has been included. Just list your requirements, Executive Techniplan can fill them.

P

. . . AND STILL MORE COMBINATIONS OF EXECUTIVE TECHNIPLAN



In some instances, it is desirable to have the auxiliary unit completely detached from the desk. If that is the most efficient arrangement for you, Executive Techniplan permits it, too.

Q

SECRETARIAL MATCHING SUITES . . .

For the executive who prefers his secretary's office to match his in design, Globe-Wernicke has available a lower height "H" leg for use under the auxiliary top. This makes it easily possible to set up the auxiliary desk at a business machine height.

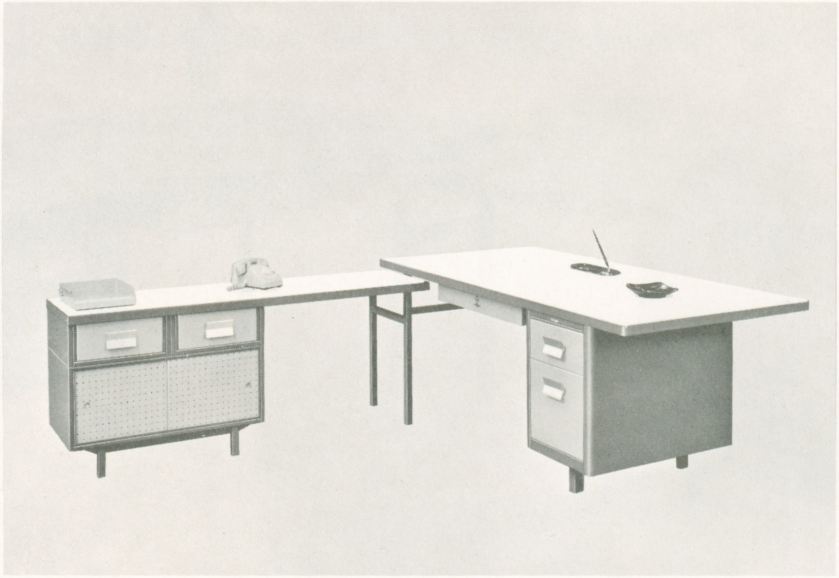
This sturdy "H" leg has a smart design similar to the regular height "H" leg used under the desk top. The business machine height leg adds to the flexibility of Executive Techniplan making available matching suites not only for the executive's secretary but also for the reception area where the receptionist uses a typewriter or other business machines.

Some executives, too, value the convenience of having typing facilities at their fingertips. The lower height "H" leg makes such an arrangement possible, either as part of the executive's L-shaped desk, or as a separate credenza unit in the executive's private office. Many arrangements incorporating this "H" leg may be set up, depending on the user's particular needs. As other Executive Techniplan components, the "H" leg is finished in the same attractive decorator colors.

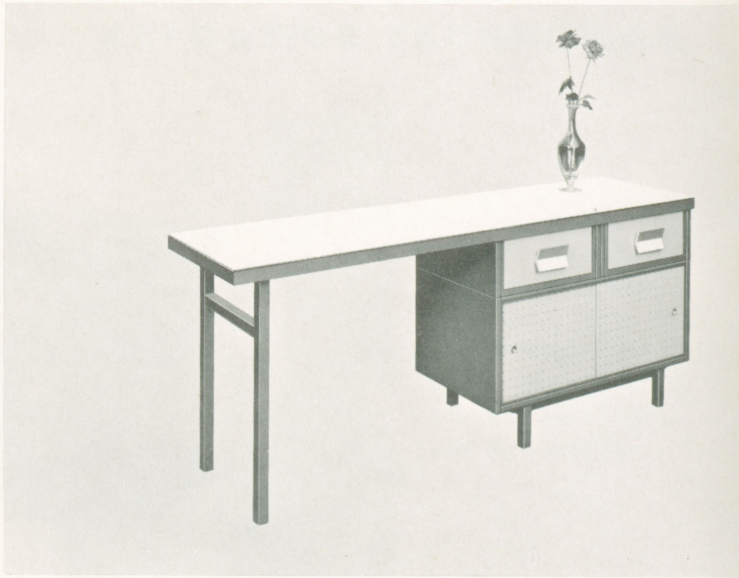
The auxiliary unit here utilizes the lower height "H" leg to provide facilities for business machines. This leg carries out the design theme of the "H" leg supporting the desk top. This arrangement is ideal for the reception area, private secretary, or for the executive who needs typing facilities.

MANY POSSIBLE ARRANGEMENTS . . . TO MEET INDIVIDUAL PREFERENCES

The grace and style of Executive Techniplan is carried out in these arrangements incorporating the use of a lower height "H" leg to provide facilities for business machines. Made of square metal tubing, finished in Executive Techniplan colors, the "H" leg is equipped with adjustable glides. Leg supports one end of auxiliary top while the other end is supported by drawer or sliding door sections to meet individual preferences. "H" leg gives a comfortable typing height of 26½". *Stock No. HL E-18.*



X



Y

At left: Desk top may rest on auxiliary top or be independently supported. Rigid "H" leg will support heaviest business machines. At right: "H" leg may be effectively used to set up a separate business machine credenza utilizing a variety of drawer or sliding door sections.

Five more typical arrangements are shown here, illustrating different desk and auxiliary combinations. There are literally hundreds of arrangements possible in Executive Techniplan. Its modular concept, pioneered by Globe-Wernicke many years ago, is so flexible that it is certain to contain a solution precisely devised to serve you best.

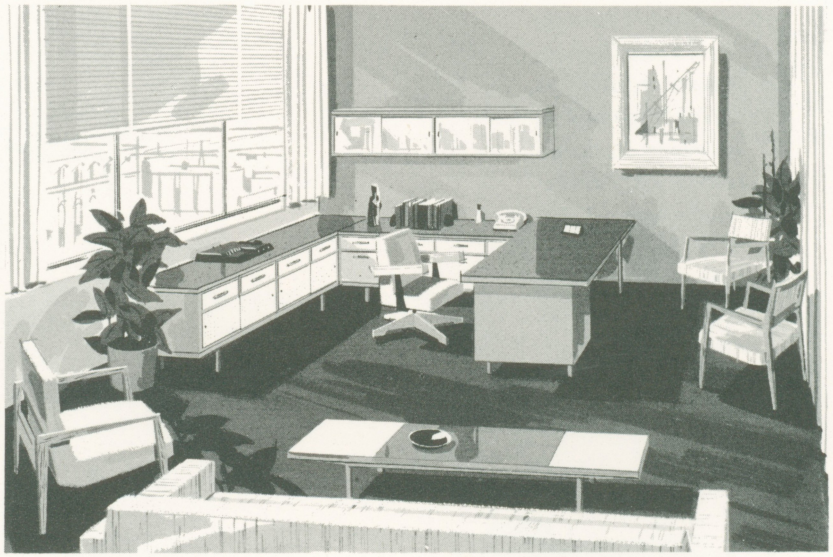
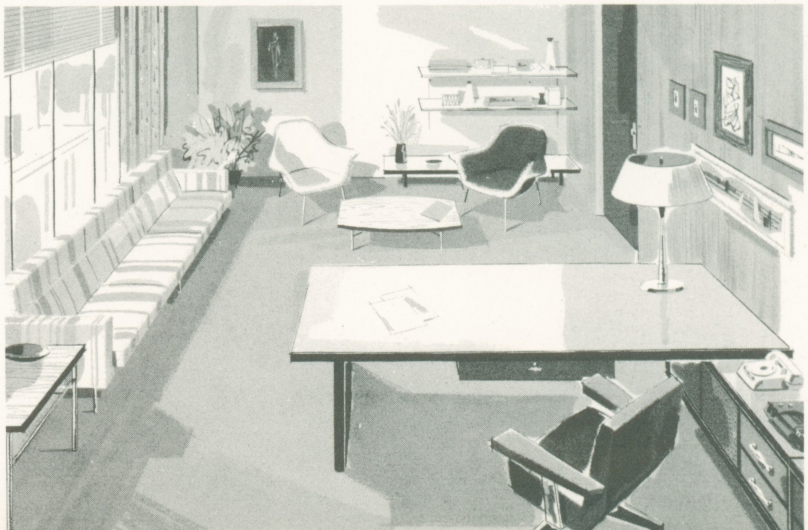
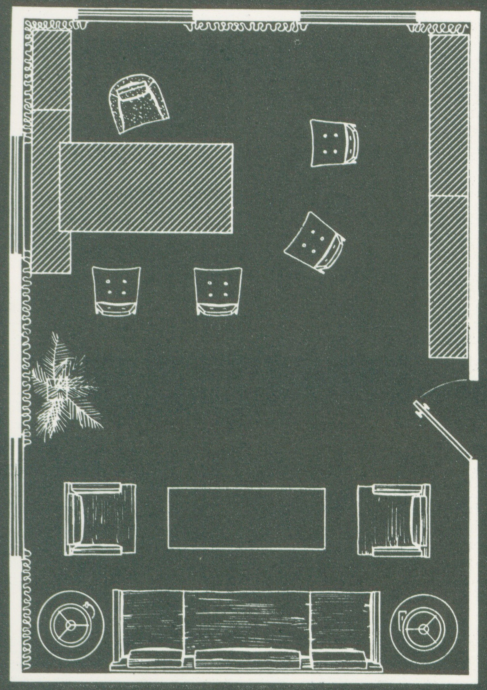
V

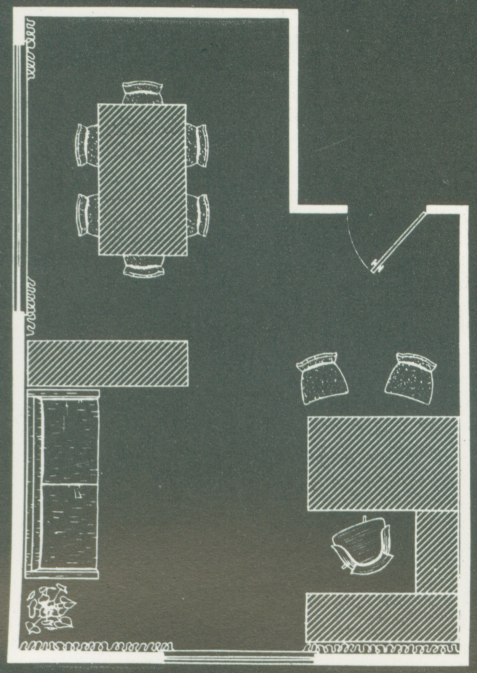
YOUR OFFICE . . . A SILENT ASSISTANT

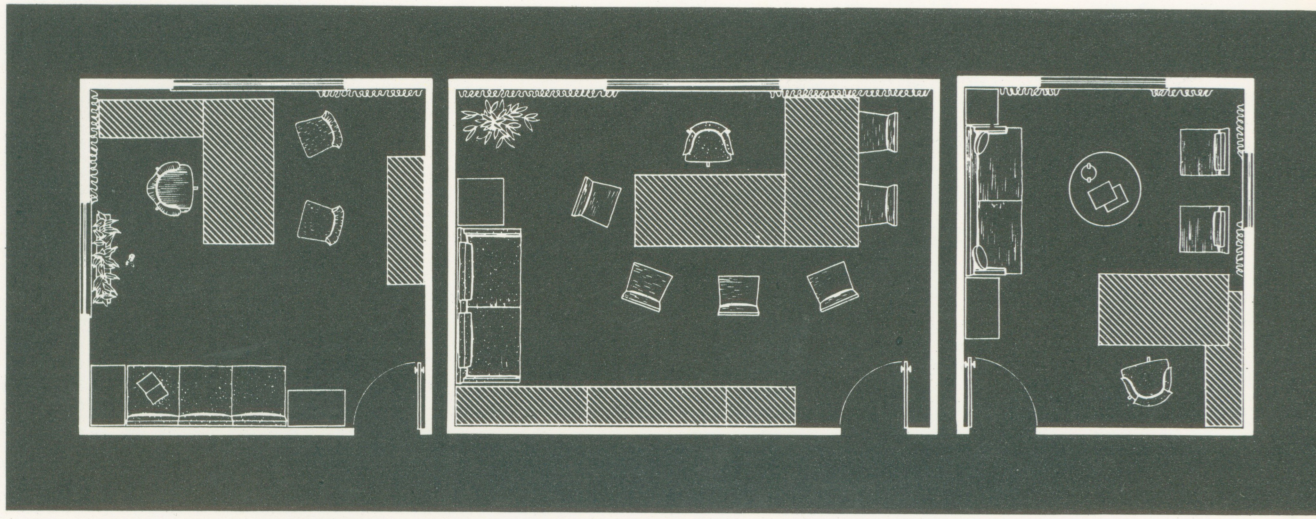


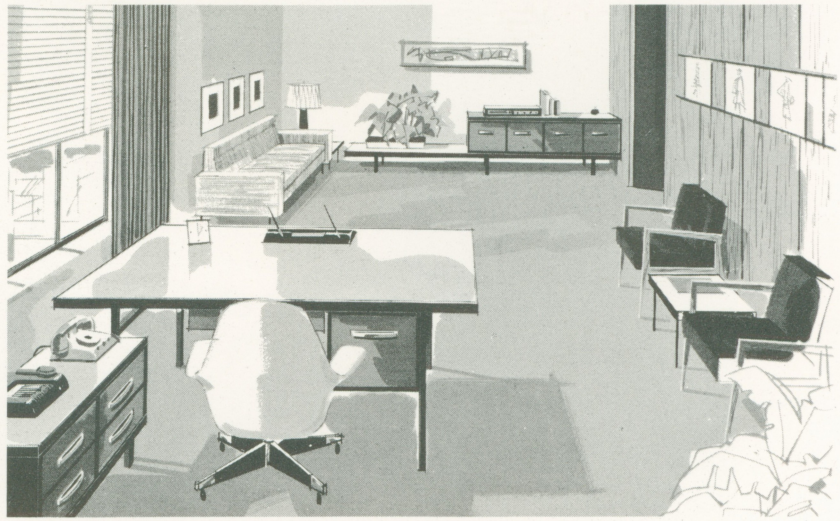
Today's fast moving business pace demands thoughtful care in executing the plan of your office. A properly space-engineered office can be your silent assistant, facilitate your work, help relieve the pressure. Some characteristic Executive Techniplan arrangements to do this for you are illustrated here. They show, for example, varying combinations of drawers under the desk top and more of them in the auxiliary unit which may be either to the right or left. The auxiliary is usually slightly lower in height and serves as a completely independent unit which can accommodate telephones, dictating machine or inter-com system, thus leaving the main desk area completely free for concentration of the problem at hand. All of this within fingertip reach . . . one quarter turn of your chair. Three heights of auxiliary units make it easy to plan the office for *you* . . . plus a cabinet or two in the background that harmonizes . . . perhaps, too, a low table for magazines, reports, and also a lamp or a planter to lend charm and interest. This is *today's* office by Executive Techniplan.



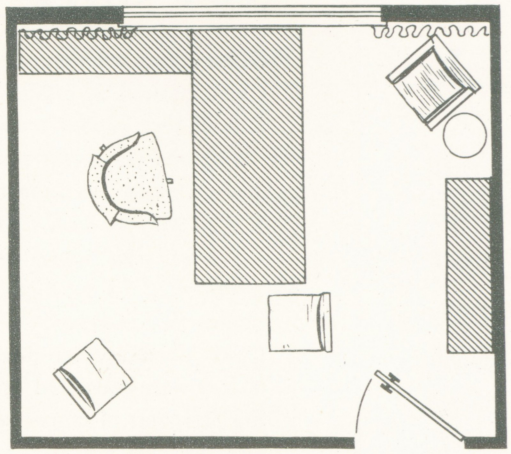








EXECUTIVE TECHNIPLAN

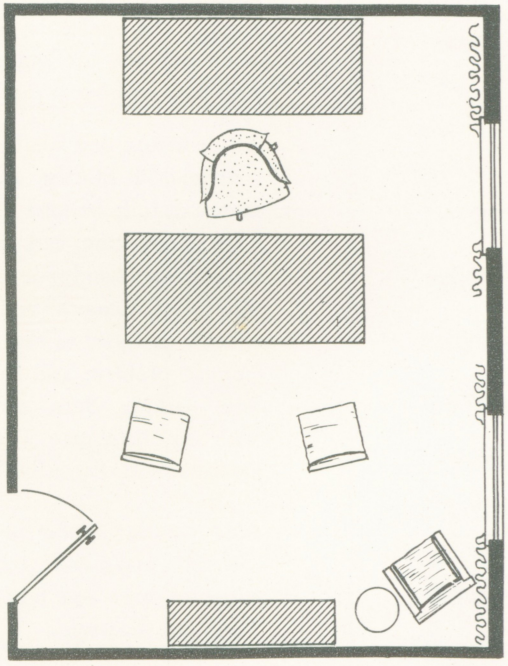


400 SQUARE FEET GLOBE-WERNICKE TECHNIPLAN

CONSERVE COSTLY SPACE

Today's high rentals make every foot of space more valuable than ever before. The L-shaped Techniplan desk with its natural off-center placement produces a more modern office and yet actually conserves space. In a relatively modest area, an impressive office can be achieved with Executive Techniplan which brings with it not only smooth-working efficiency, improved traffic flow, and a handsome background, but also important economies in space which can save you considerable sums over the years.

At the right, you see two floor plans, one using Executive Techniplan and the other the old-fashioned center-of-the-office desk. At a saving of 33-1/3% in space, Executive Techniplan actually yields the superior office!



600 SQUARE FEET CONVENTIONAL FURNITURE

WHAT A CHOICE YOU HAVE HERE!

These colors were chosen with three considerations in mind:

1. *Will they yield a setting stimulating and yet restful, too?*
2. *Will they go well together?*
3. *Will they go well with colors of fabrics, wall papers and flooring preferred by topflight decorators for office interiors?*

Color psychologists and color specialists were consulted, as were leading designers of offices to make certain the final selection would meet the above requirements. It is doubtful if so much thought and effort were ever before put into the selection of colors for a line of office furniture. The choice is exceptionally wide and you are quite certain to find your own ideal combination.

All desk tops and auxiliary tops are covered with Micarta, a plastic laminate carefully bonded to the metal. This long-lasting, easy-to-clean surface carries a handsome, mottled pattern called "Cosmos" which was specifically designed to ease your maintenance problem and to keep your desk looking clean and attractive with very little care. The colors are exclusive with Executive Techniplan.

BODY COLORS *appear on the sides of pedestals, filing units, and bookcases, edges of tops and legs. They also frame the drawers.*

ACCENT COLORS *appear on drawer fronts and on sliding doors of cabinets.*

TOP COLORS *appear only on the Micarta desk tops.*

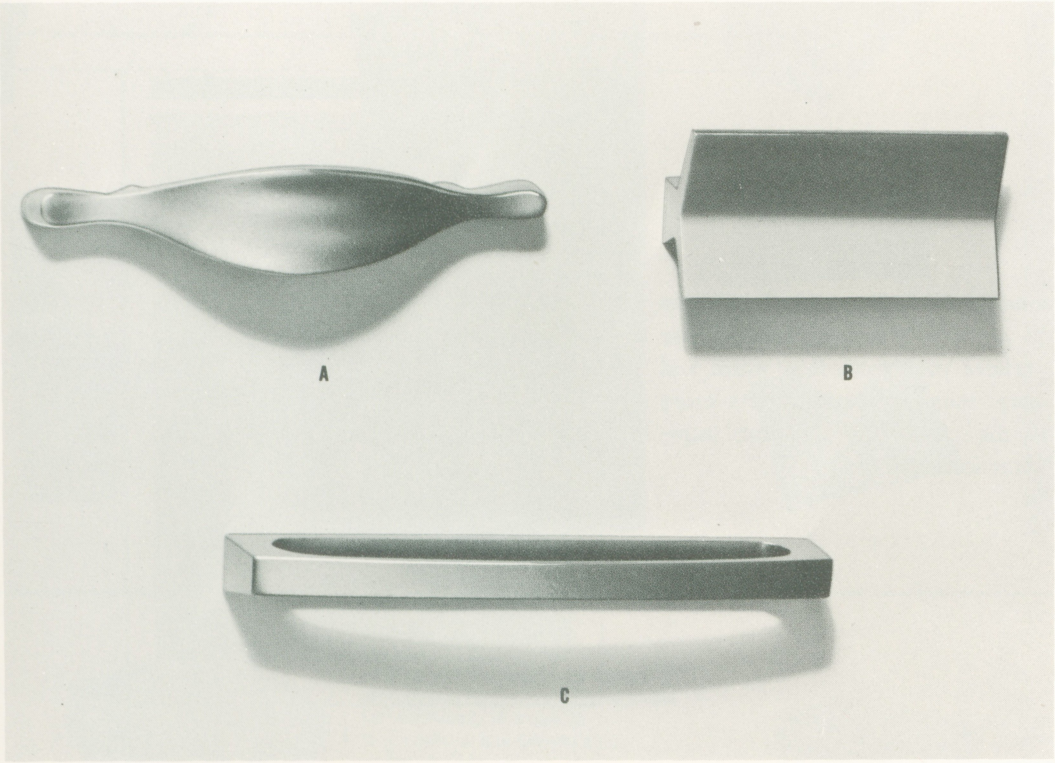
SEE HOW WELL THESE COLORS COMBINE

See how smart these color schemes are. In each instance the background color represents the desk top, the next color represents the body frame and the small inner square is an accent color for drawer fronts and sliding panels.

Combinations on facing page are keyed to those on page 17.

YOUR CHOICE OF HARDWARE, TOO



Hardware for Executive Techniplan is of solid cast aluminum. It comes in either anodized aluminum or anodized bronze finish, the beauty of which further enhances this furniture. You can have your choice, too, of any one of these three types of pull:

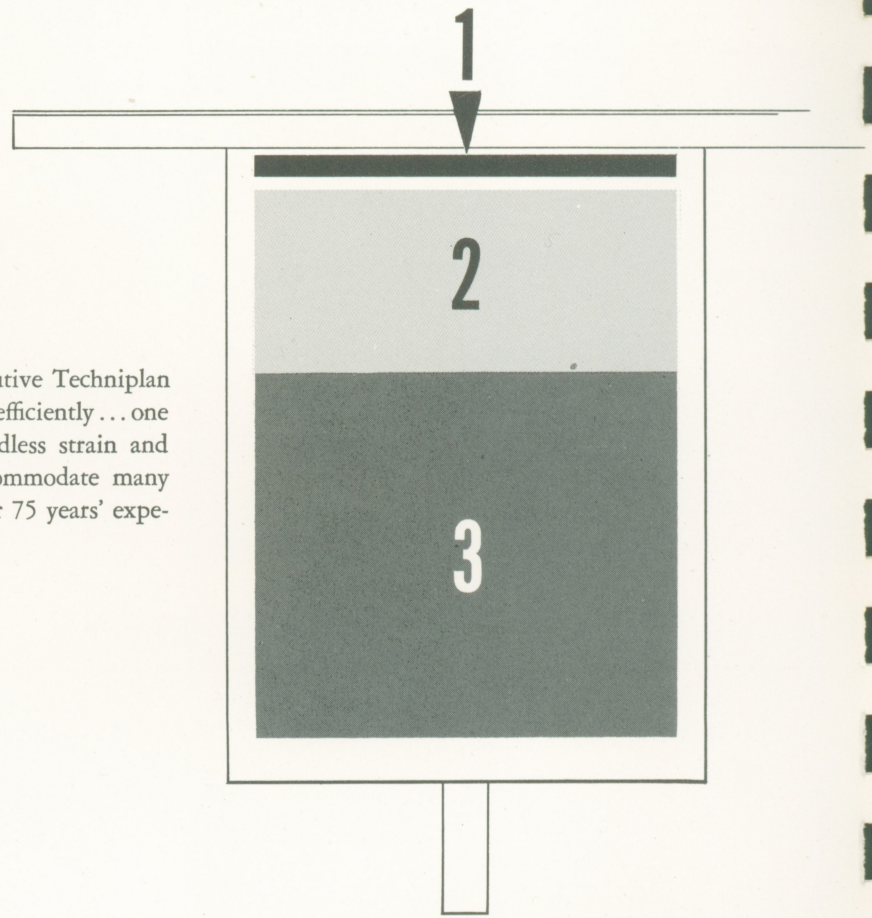
A. SCULPTURED. *A graceful, skillfully shaped handle of exceptional rhythm and flow.*

B. BUTTERFLY. *A contemporary design of great simplicity and character.*

C. CONTOUR. *A highly efficient, functional grip, slender in design and appearance.*

SPECIAL GLOBE-WERNICKE ACCESSORIES TO EASE YOUR TASKS

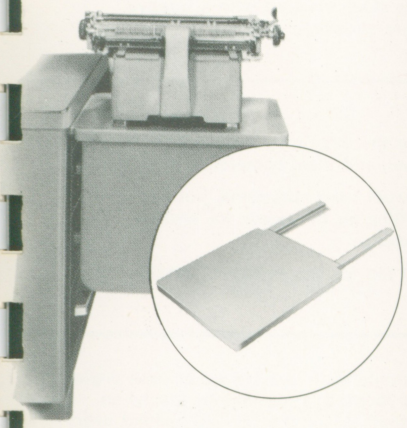
Here you have a close-up of some of the additional elements Executive Techniplan offers you so as to compose an office that serves you quietly and efficiently... one that heightens your productivity and helps to relieve you of needless strain and tension. Executive Techniplan desks and auxiliary units can accommodate many exclusive, engineered Globe-Wernicke accessories, the result of over 75 years' experience creating furniture and office devices for American business.



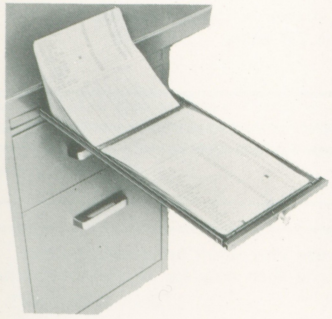
See opposite page for accessories that may be used in the above numbered locations.

1

DESK SLIDE



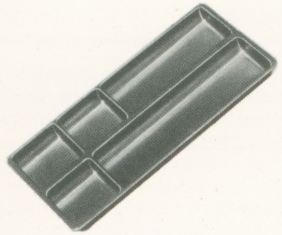
TYPEWRITER PLATFORM SHELF. For the executive who must have a typewriter ready at all times. The shelf may be easily interchanged with the desk's arm slide.



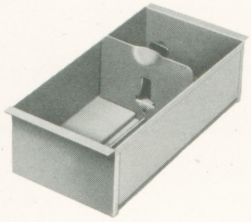
VISIBLE RECORD TRAY. Skilfully concealed within the desk arm slide, this visible card record tray provides instant reference to important facts.

2

BOX DRAWER

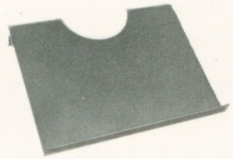


CONVENIENCE TRAY. Of plastic, fits into desk drawer, is ideal for clips, pins, pencils, erasers, rubber bands, etc.

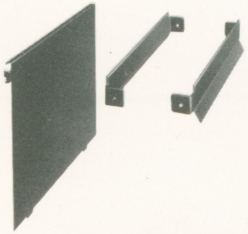


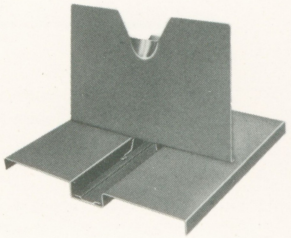
REMOVABLE CARD TRAY. Available in three sizes, for 3 x 5, 4 x 6, and 5 x 8 size cards. Fits inside small box drawer of desk pedestal.

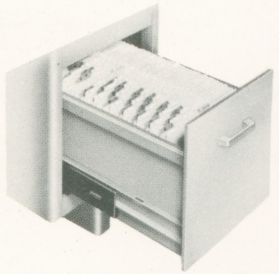
VERTICAL PARTITION. Used to divide small box drawer into conveniently sized compartments. One partition regularly furnished with each drawer.



SLOPING PARTITION. Used to convert box drawers into stationery compartments.







3

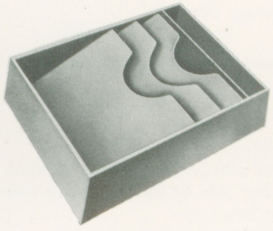
FILE DRAWER

SUPPORTS FOR HANGING FOLDERS. For those who prefer to use Verti-Swing hanging folders in side-to-side filing arrangement.

VERTICAL PARTITION. May be installed to divide large file drawer into letter or legal size compartments for side-to-side filing.

FOLLOWER INSERT. Used when side-to-side filing is preferred.

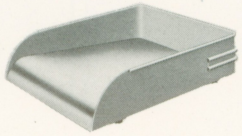
FILING SYSTEM. A packaged Safeguard Filing System outfit that contains all the essential supplies for a one-drawer A-Z file. Easily installed in desk pedestal filing drawer or in auxiliary units.

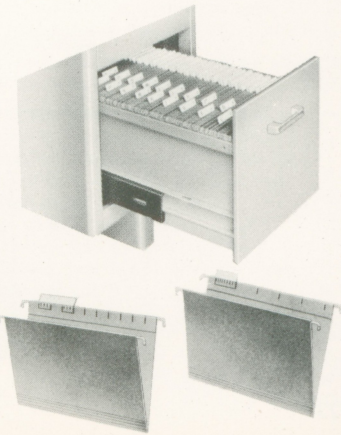


STATIONERY TRAY. Has three sloping compartments for letter size sheets as well as compartment for envelopes. (For use in E-117½BD-1 Box Drawer unit listed on page 25)

WASTEBASKET. Generously scaled, but because of its special shape, actually takes less space than the square type. Vinyl bumper prevents desk scars.

DESK TRAY. Scientifically correct slant of the bottom of tray, plus open curved end makes insertion or removal of papers easier and quicker.





HANGING FOLDERS. (For front-to-back filing) The file drawers can accommodate hanging folders, too. No extra equipment is needed, for folders slide easily along top edges of drawer.

PRECISE SPECIFICATIONS . . .

ITEM	STOCK NO.	DIMENSIONS	DESCRIPTION
 DESK TOPS	**General Description:** Desk and Auxiliary Tops are made of high quality furniture steel, covered with attractive, easy to maintain, and long wearing laminated plastic. Selections of top colors are shown on page 16. The binding around the edges is stainless steel.		
	DT E-9642	96″w x 42″d x 1½″h	A spacious top for the large office, providing enormous desk top work area, and ideal conference arrangements.
	DT E-7638	76″w x 38″d x 1½″h	A top slightly smaller than above one, but still sizable and providing all the needs for working area and conference.
	DT E-6636	66″w x 36″d x 1½″h	A moderate sized top for the somewhat smaller office.
 AUXILIARY TOPS	AT E-8418	84″w x 18″d x 1½″h	When two 66″ arrangements are placed at right angles in the corner of a room, this top may be placed on one of them so that 18″ of the top will extend over one end and thus cover the square opening at the corner.
	AT E-6618	66″w x 18″d x 1½″h	Used to cover auxiliary arrangements that are 66″ wide.
	AT E-3318	33″w x 18″d x 1½″h	Used to cover any drawer or storage section arrangement that is 33″ wide.
 CENTER DRAWERS	Center drawer equipped with patented convenience tray and grooved key lock. Has hood at rear to prevent papers from riding over back. May be located at any desired spot under desk top—fastens quickly and solidly with clamps.		
	CD-33	33″w x 3⅛″h Inside Drawer: 2¾″h x 31¼″w x 18¼″d	Recommended for use only when an unusually large drawer is desired, and then only for use with 96″ top.
	CD-27	27″w x 3⅛″h Inside Drawer: 2¾″h x 25¼″w x 18¼″d	Recommended for most situations—a roomy drawer of convenient proportions.
	CD-22	22⅝″w x 3⅛″h Inside Drawer: 2¾″h x 20⅞″w x 18¼″d	For use in situations with 66″ top when filing drawer is suspended from desk top and space available will not accommodate larger drawer.
 DESK FILING DRAWER	E-125VL	16½″w x 25″d x 13¼″h Inside Drawer: 12¼″w x 23¾″d x 11⅜″h	One letter size drawer with progressive suspension slides. For fastening to under side of desk top to provide filing space at fingertips.

A floor plan sketch should accompany each order.

ITEM	STOCK NO.	DIMENSIONS	DESCRIPTION
 **DESK PEDESTALS**	**General Description:** There are two types of pedestals. Type A has one box drawer and one large filing drawer. Type B has three box drawers. There are three styles of supports; Island base, square tubing legs, and fiber glass legs. Pedestals are for use only with 76-inch and 66-inch tops. Cannot be used with 96-inch tops. Box drawers are equipped with one adjustable vertical partition. Additional vertical partitions, or sloping partitions to form stationery compartments, are available at nominal extra cost. Filing drawer is arranged with compressor for front to back filing. A compressor insert and cross partitions for side to side filing, either letter or legal size, is available at no extra cost if installed at the factory. Sides of filing drawer are formed so that Verti-Swing (and other makes) hanging folders may be used in the drawer without installing a separate frame.		
	DP E-A30	16⅜"w x 29¾"d x 27½"h Inside Box Drawer: 12¼"w x 26⅝"d x 6"h Inside File Drawer: 12¼"w x 26⅝"d x 11⅞"h	Contains one box drawer at top and file drawer below. The position of these may be reversed at any time. Large file drawer operates on full progressive ball bearing suspension slides. Has full island base with adjustable glides.
	**DP E-A30-TL**		Same as above except with square tubing legs which also have leveling glides.
	DP E-A30-FL		Same as above except with tapered fiber glass legs with leveling glides.
	DP E-B30		Contains three box drawers, each with one adjustable vertical partition. Each drawer operates noiselessly and easily on ten nylon glides. Has full island base with adjustable glides.
LOCKS: Each pedestal has a locking device. Orders must indicate whether pedestal is used on right or left end of top, so appropriate lock components can be included.	**DP E-B30-TL**		Same as above except with square tubing legs which also have leveling glides.
	DP E-B30-FL		Same as above except with tapered fiber glass legs with leveling glides.
END LEGS & PANELS 	**General Information:** All end legs and panels are provided with brackets for attaching solidly to the desk top. Holes are provided in the support channels of the top for that purpose. All of these items have leveling glides.		
	HL E-31	1¼"w x 31⅛"d x 27½"h	"H" type legs made of square tubing, modern in design and easy in maintenance.
	SL E-31	1¼"w x 31⅛"d x 27½"h	"Splayed" type square tubing legs provide a new, different appearance that adds to the flair of an office.
	TP E-31	2½"w x 31⅛"d x 27½"h	Tapered in both directions, this panel end proves attractive in almost any setting. Not recommended for use with 96-inch top.
	FL E-31-4	1¼"w x 31⅛"d x 27½"h with 4" high support attachment	A single leg with a support attachment to be used when the main desk top is to overlap and rest on the auxiliary units. The support attachment has a bracket that hooks under the auxiliary top. This bracket may be moved to any desired point on the support attachment so that the amount of overlap may be selected as desired. The support attachment here is 4" high which provides a 4-inch space between main desk and auxiliary desk top.
	FL E-31-1	with 1" high support attachment	Same as above except to provide a 1-inch space between main desk top and auxiliary desk top.

MORE SPECIFICATIONS...

ITEM	STOCK NO.	DIMENSIONS	DESCRIPTION
 LEG BASES FOR AUXILIARY UNITS	LB E-614	66"w x 18"d x 14¼"h	Sectional units of filing drawers, box drawers, or sliding door storage units are placed on these bases to form auxiliary desk or separate credenza type units. An auxiliary top placed directly on the base forms a very attractive and useful low height table for all types of decorative purposes. Sturdily constructed of square tubing and rigidly reinforced, each leg has leveling glide. Three different heights of legs make it possible to place various arrangements of sections to accomplish an almost unlimited selection of useful combinations.
	LB E-608	66"w x 18"d x 8¾"h	
	LB E-605	66"w x 18"d x 5⅛"h	
	LB E-314	33"w x 18"d x 14¼"h	
	LB E-308	33"w x 18"d x 8¾"h	
	LB E-305	33"w x 18"d x 5⅛"h	
STORAGE SECTIONS 	E-217 BSD	33"w x 17"d x 13¼"h Inside: 31"w x 16$\frac{5}{16}$"d x 11⅜"h	Sliding door storage section—regularly furnished with clear glass doors. Fluted Linex glass or perforated painted masonite doors are also available. Specify on order which style is desired. Unless otherwise specified, clear glass doors will be furnished.
 ONE DRAWER SECTION	E-117 VL	16½"w x 17"d x 13¼"h Inside Drawer: 12¼"w x 15¾"d x 11$\frac{3}{16}$"h	One letter size drawer, progressive suspension slides.
	E-117 VC	16½"w x 17"d x 13¼"h Inside Drawer: 15⅛"w x 15¾"d x 11$\frac{3}{16}$"h	One legal size drawer, bottom type suspension slide.
 TWO DRAWER SECTIONS	E-217 VL	33"w x 17"d x 13¼"h Inside Drawer: 12¼"w x 15¾"d x 11$\frac{3}{16}$"h	Two letter size drawers, progressive suspension slides.
	E-217 VC	33"w x 17"d x 13¼"h Inside Drawer: 15⅛"w x 15¾"d x 11$\frac{3}{16}$"h	Two legal size drawers, progressive suspension slides.

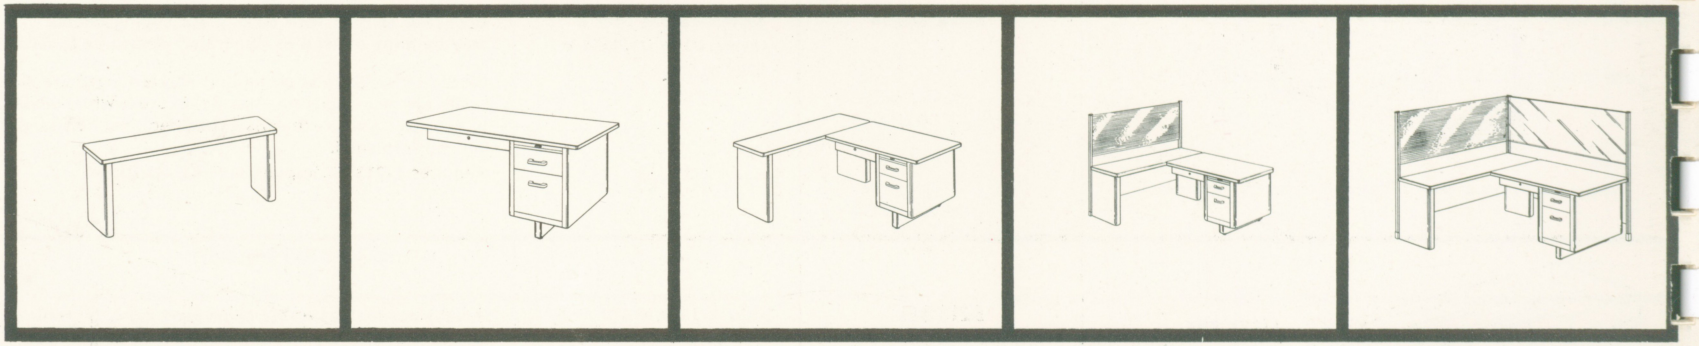
A floor plan sketch should accompany each order.

ITEM	STOCK NO.	DIMENSIONS	DESCRIPTION
 BOX DRAWERS	E-117 LBX	16½"w x 17"d x 13¼"h Inside Drawer: 14¼"w x 15¾"d x 3¼"h	Three box drawers for storage.
 BOX DRAWER	E-117½BD-1	16½"w x 17"d x 6⅝"h Inside Drawer: 12¼"w x 15¾"d x 5⅝"h	One box drawer equipped with progressive suspension slides.
TOP	E-213 FT	33"w x 13"d x 1"h	Steel top for 13" deep bookcase units.
BOOKCASE SECTIONS 	E-213 BSD-14	33"w x 13"d x 14¾"h Inside: 31"w x 12¼"d x 12⅞"h	Bookcase section with clear glass sliding doors. May be hung on wall as illustrated elsewhere in catalog. Fluted Linex glass or perforated painted masonite sliding doors are also available. Specify on order which style is desired. Unless otherwise specified, clear glass doors will be furnished. Requires E-213 FT to provide Finished Top.
 LIGHT BOX	E-213 WBL	33"w x 13"d x 3"h	A light box fastens under bookcases, hung on wall. Contains a fluorescent light fixture with two lamps, operated by a toggle switch and includes six feet of cord and plug.
CLOSED BASE 	E-213 CB	33"w x 13"d x 5"h	A closed base for bookcase sections. Has leveling glides.

Standard Techniplan* for your general offices

Not only your executive offices but your general offices, too, can benefit by using the Techniplan system of office furniture. This completely modular concept was originated by Globe-Wernicke years ago and is still the leader in the field. The system consists essentially of a desk top with center drawer, desk pedestals, auxiliary top and end supports that are easily assembled into an L-shaped unit by means of interlocking devices. Partition panels for privacy, as well as horizontal filing sections and shelves, may be added as desired. Great flexibility makes it possible to arrange multiple units for stenographic or clerical pools, and also semi-private offices. Many space-saving combinations can permit expanded office personnel without increase in space. In short, an engineered office to insure maximum efficiency can be yours by using both Executive Techniplan and Standard Techniplan.

completely modular... easily assembled... flexible



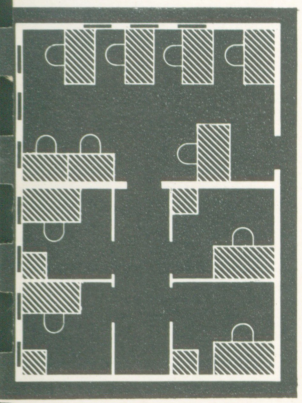
Auxiliary top with end supports.

Desk top with supporting pedestal.

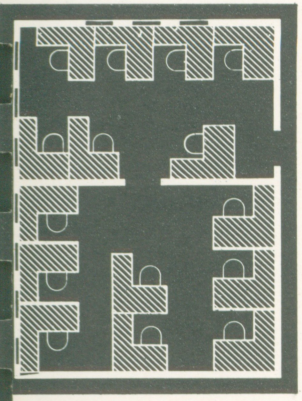
Desk top attached to auxiliary top to form the basic "L" unit.

Sectional partitions easily added when more privacy is desired.

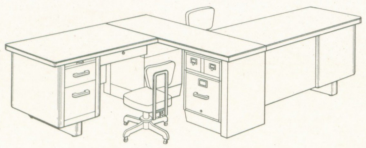
Individual Techniplan work station, complete with partitions.



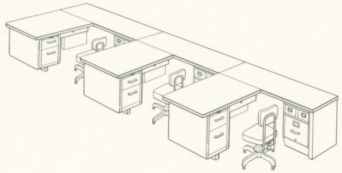
36% MORE



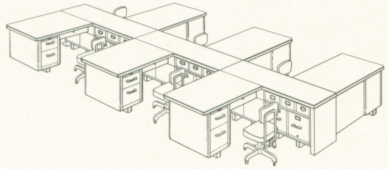
By replacing the above four private offices with partitioned Techniplan units, fifteen work areas are created where only eleven existed.



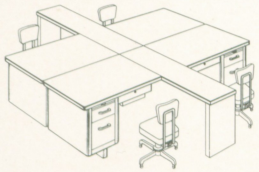
Two work stations require only one auxiliary top.



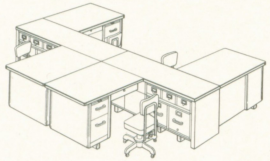
Three desk units, all on the same side of the auxiliary tops.



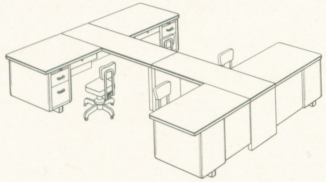
This plan gives six work stations with only three auxiliary tops.



Four desks with two auxiliary tops which make an unusually compact area.



This arrangement of four desks makes an extremely efficient work area.



Four desks with desks facing out saves space over conventional equipment.

**TECHNIPLAN is a registered U. S. trade-mark. Design and construction of Techniplan equipment are covered by pending patent applications.*

Techniplan was designed by Donald Deskey Associates in collaboration with The Globe-Wernicke Co.
